

# heart topiary tree card

## materials

- A4 yellow cardstock
- quilling paper – pink, red, green & brown
- green corrugated cardboard
- brown corrugated cardboard
- scissors
- PVA glue

Roll strips of pink and red quilling paper into coils and glue the end of the strip to the roll to hold in place. Do the same with the strips of green quilling paper, then press the coil between your fingers to form leaves.

Fold the yellow A4 cardstock in half to make the card. Cut the green corrugated cardboard into a heart shape and glue the quilled flowers and leaves onto it.

Cut a 10cm length of brown quilling paper and glue onto the card to make the stem of the topiary tree. Cut the brown corrugated cardboard into a pot shape and glue at the base of the stem. Glue the green heart bush at the top of the stem.
